### **How can/has the M25 Consortium supported you in your career?**

We've only joined recently, although I think we used to be a member in the past, the knowledge sharing and skills development offered will be invaluable in supporting me and the team.

Despite my career path, my area of study was Fine Art. I would always encourage anyone with an interest to study the field. I have to have a creative outlet to be happy, sometimes it's making clothes or furnishings or DIY and often it is drawing or painting.

**Complete the sentence:** If I wasn't working in a library I would be working in heritage because I enjoy learning about and sharing history through people and objects.
